A Season for Change

They say every penny counts but you might not think that coins can ever amount to much.

Put this theory to the test by placing every coin you find or receive this summer in a piggy bank or special jar. At the end of the summer, dump out the coins and get help calculating the total amount.

It’s amazing how quickly a few coins here and there can add up! Not spending change is a fun and easy way to become a better saver.

Kid in the Kitchen

Maybe you or someone you know are celebrating a birthday this summer like APCI FCU is! Birthdays are a fun time to make a special treat. Birthday Cake Snack Mix is a fun, no bake idea that you can share with friends.

True or False: You must have been a past US President to appear on American currency.

False. Currently, Alexander Hamilton, the first Secretary of the Treasury, appears on the $10 bill and Benjamin Franklin, a signer of the Declaration of Independence, appears on the $100 bill. Neither Hamilton or Franklin were ever President of the United States.
